Real Estate Revenue System

A 6-week done-with-you program that stops your agency losing 10–15% of its leads and shows you which channels actually bring deals.

WHO IT'S FOR

Owners of real estate agencies in Bali and Thailand with 5–30 brokers and 100+ leads a month, who already have a CRM but no certainty that leads aren't leaking.

WHY ME

- Four years as COO at a developer; grew an agency from 12 to 100 people through two market crashes.
- Method proven across three agencies in Bali with multiple sales lines (frontline, sales, commercial, partner and developer projects).
- I design the system, your team implements it by a ready Blueprint. The owner spends about 2 hours a week.

WHAT YOU GET IN 6 WEEKS

- **Week 2:** first visible changes in the CRM.
- **Week 6:** every lead has an owner, a stage and a next action; the owner sees in one dashboard where deals come from and which channels pay off; managers work in the CRM, not in Excel and chats.

THE COST OF DOING NOTHING

> 150 leads a month × 12% lost × 3% conversion × $8,000 commission
> **≈ $4,300 a month** walking past your cash desk.
> Six months: about $26,000, four times the price of the system.
> Numbers are illustrative; we plug in yours on the first call.

GUARANTEE

If after 6 weeks there are leads in your CRM without an owner and a next action, or the owner's dashboard doesn't show deal sources, I keep working for free until it's fixed. Condition: your team completes the Blueprint tasks on time.

LOW-RISK ENTRY

Sales Diagnostic, $2,000. In 14 days you get the Blueprint and an implementation plan. Decide to implement with me and the $2,000 is credited toward the full program.
